

Section I- Product and Company Identification

Product Name: Biochar Blend for Tomato & Vegetable

Recommended Use: Soil Additive

Manufacturer Wakefield Biochar 1826 Clay Road Valdosta, Ga 31601 Email: info@wakefieldbiochar.com	Customer Service: (229) 278-2488 Monday- Friday 8am-5pm EST Emergency Contact: National Poison Control: 1-800-222-1222

Section II- Hazard Identification

- Hazard Classification of Biochar Blend for Tomato & Vegetable: Not Classified as Hazardous per OSHA HCS 29CFR 1910/1200
- Flammable Wood – Category 5
- Aspiration Hazard – Category 4
- Carcinogenicity – Category 5
- Skin Irritation – Category 5
- Eye Irritation – Category 5
- Chronic Aquatic Toxicity – Category 4
- Specific Target Organ Toxicity (Single Exposure) – Category 5
- Specific Target Organ Toxicity (Repeated Exposure) – Category 5
- NOTE: Category numbers indicate hazard severity, with 1 being most hazardous and 5 being least hazardous.

Section III - Composition/Information on Ingredients

Ingredients	Concentration	CAS Number
Biochar (Wood-Based Carbon)	29.67%	16291-96-6
Plant-Based/Wood-Based Compost	70.0%	NA741
CarbonBoost™*	0.33%	Proprietary Blend

- ***CarbonBoost™ includes humic acid, mycorrhizae, and beneficial bacteria.**
- Package-listed CarbonBoost™ components: humic acid (0.3%), mycorrhizae (0.03%), Bacillus subtilis (570 million CFU/quart), Bacillus pumilus (570 million CFU/quart), and Bacillus amyloliquefaciens (280 million CFU/quart).

Section IV: First-Aid Measures

- Effects of Overexposure. Exposure to biochar, compost, and microbial dust may cause skin, eye, or respiratory irritation, as well as allergenic responses or asthma.
- Medical Conditions Prone to Aggravation. Individuals with asthma, bronchitis, or allergies may need to avoid further exposure to carbon or microbial dust.
- Inhalation. Remove to fresh air. If symptoms persist, such as wheezing or breathing difficulty, seek medical advice.
- Eye Contact. Flush with water to remove dust particles. If irritation persists, seek medical attention.
- Skin Contact. Wash thoroughly with soap and water. If rash or persistent irritation occurs, seek medical advice.
- PPE Recommendations. Use a P100 respirator to protect against microbial spores. Wear gloves and eye protection to minimize contact with biochar dust.

Section V: Fire-Fighting Measures

- Flammability. Product is flammable near direct flame or at temperatures >700°C. Auto-ignition temperature: >700°C.
- Unusual Fire and Explosion Hazards. Fine dust dispersed in air can create a potential dust explosion hazard. Minimum explosible concentration: 0.140 g/l.
- Extinguishing Media. Water spray.
- Fire-Fighting Equipment. Use full protective gear and SCBA with a full-face mask in positive pressure mode. Cool exposed containers with water and remove if safe to do so.

Section VI: Accidental Release Measures

- Leak and Spill Procedures. Ensure the area is well-ventilated. Use a vacuum with a HEPA filter or wet methods to avoid dispersing microbial dust into the air.
- Cautions. Avoid creating dust. Biochar may smolder if exposed to heat over 550°C.
- Handle spills carefully to prevent airborne release of microbial spores or bacilli.

Section VII: Handling and Storage

- Handling Procedures. Avoid dust release during handling.
- Storage Requirements. Store below 80°C. Keep covered to limit dust. Avoid storing with oxidizing agents.

Section VIII: Exposure Controls/ Personal Protection

- Gloves. Required to minimize skin contact with microbial components.
- Respirator. Use a NIOSH/OSHA-approved particle respirator (P100) if dust levels are excessive.
- Eye Protection. Wear safety glasses with side shields.
- Ventilation. Utilize exhaust ventilation where possible.

Section IX: Physical and Chemical Properties

- Physical state: Solid blend.
- Appearance: Dark biochar and compost blend.
- Odor: Earthy.
- pH: Not established for finished blend.
- Melting point/freezing point: Not applicable.
- Initial boiling point and boiling range: Not applicable.
- Flash point: Not applicable.
- Evaporation rate: Not applicable.
- Flammability (solid, gas): May be flammable near direct flame or elevated temperatures; fine airborne dust may be combustible.
- Upper/lower flammability or explosive limits: Not applicable.
- Vapor pressure: Not applicable.
- Vapor density: Not applicable.
- Relative density / bulk density: Not established.
- Solubility: Insoluble in water.
- Partition coefficient: n-octanol/water: Not applicable.
- Auto-ignition temperature: Not established.
- Decomposition temperature: Not applicable.
- Viscosity: Not applicable.

Section X: Stability and Reactivity

- Reactivity: Contact with strong oxidizers may result in fire.
- Chemical Stability: Stable in closed containers at room temperature.
- Conditions to Avoid: Incompatible materials, combustible materials.
- Incompatible Materials: Strong oxidizers, sparks, heat, flame.

- Hazardous Decomposition Products: Carbon oxides (CO, CO₂).

Section XI: Toxicological Information

- Potential respiratory allergens may be present due to microbial components in CarbonBoost™. Inhalation of microbial dust may cause allergic reactions or respiratory irritation in sensitive individuals.

Section XII: Ecological Information

- CarbonBoost™ includes live microorganisms (bacilli and mycorrhizae) which may influence local soil microbiomes if released in large quantities. There are no known significant negative environmental impacts, but careful handling is recommended to prevent unintended microbial release.

Section XIII: Disposal Considerations

- Sweep or vacuum product. Incinerate or dispose of in accordance with all federal, state, and local regulations.

Section XIV: Transportation Information

- Always ensure the load is covered to prevent dust loss. Wear proper PPE when tipping or unloading. Biochar is hygroscopic and can absorb liquids and gases.

Section XV: Regulatory Information:

- No additional information is available at this time.

Section XVI: Other Information

- SDS Creation Date: 3/6/25
- Revision Date: 8/10/26
- Revision: 01
- Disclaimer: The information provided in this Safety Data Sheet is based on available data and believed to be accurate as of the creation date. However, no warranty, express or implied, is made regarding its accuracy, completeness, or suitability for any particular purpose. The user is responsible for ensuring compliance with applicable laws and regulations.
